

RESOURCES FOR COMMUNITY LIVING

Our Mission

To offer adults with developmental and/or physical disabilities opportunities to achieve greater self-esteem, dignity, and participation in all aspects of community life through affordable, independent housing options, individualized skill instruction, and necessary support services.

Our Obstacle

In spite of recessions and government cutbacks, people like you have kept our organization strong. Today our fundraising activities provide enough resources for our current clients. However, the number of adults with disabilities continues to grow, and we want to meet this growing need.

Our Goal

To expand the work of the FINANCIAL INDEPENDENCE CENTER which features vocational training, small business development and personal financial counseling. We are working to develop a Social Enterprise that will help train individuals with disabilities through work experience.
